

# Installation Instructions

## Part 15993-113A (1988-1997) and Part 15993-113B (1998-2000)

### GL1500 Fork Light Mounts

**NOTE: Work one side at a time. Read instructions carefully before installation.**

1. Place bike on center stand.
2. Remove front wheel cover per the service manual.
3. Attach "Z" bracket at upper/outer –most bolt on anti-dive unit on fork (with over-length bolt provided).
4. Re-install wheel cover and attach at top with stock bolt. ("Z" bracket sticks out thru vertical air scoop.)
5. Install lights on stack bracket with wiring extending out of back between top and middle lights (this allows wire to be threaded behind wheel cover through vertical air scoop, by bracket).

**NOTE: Lights are not included with this part.**
